

## FILIPINO ON FREE TRADE.

Ocampo Says It Means Ruin to the Islands.

Hope of People Is for Ultimate Independence.

Grateful to America for Release from Spain.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, May 12.—(Exclusive Dispatch.)—The Philippine Assembly, today voted to support the free trade bill, but the Philippine people, recently expressed by a number of Filipinos in Boston.

He said: "The Philippine Assembly, the true representative of popular sentiment, has, in conjunction with the upper house, which is composed largely of Americans, expressed itself in opposition to free trade, and since the passage of the bill by the House of Representatives, the feeling against it has grown more intense. This is because free trade would mean the loss of the Philippine government's financial independence.

"This free trade proposition is a case of life and death with us. The Filipinos who signed the protest have done nothing more than express a feeling universal in the islands, against free trade for the consequences it would bring to the islands in the long run.

"I hope that no one will think that in expressing the aspiration of the Philippine people for ultimate, reasonable prompt and absolute independence, they have, ceased to feel profound gratitude for the opportunity that the American republic gave us to be rid of Spain. It ought to be understood that in the centuries of protest against the rule of Spain we were not merely trying to get rid of a foreign yoke to go under another.

"Providence made us a different race. Our problems are not those of Europe or America, and we cannot approach their consideration with the same mind. What is best for Europe or America, is not necessarily best for Asia, and Asiatic problems ought better be left to the people of that part of the world for solution.

"But one idea we do have in common, and that is a desire to be permitted to govern ourselves."

TO PLAN BETTER CITIES. CONFERENCE CALLED.

(ASSOCIATED PRESS DAY REPORT.) WASHINGTON, May 12.—A call for a conference on city planning has been issued by the proposed conference to be held in this city on May 21 and 22.

The call is signed by Miss Jane Addams of Hull House, Chicago, United States Senator Burton, President Eliot, and many others, asserting that the "problem of congestion in most of our large cities has become so serious and threatening that it has engaged the attention of the numerous commissions and committees throughout the country."

The signers say city planning will be treated on identity basis, including all the methods which must be used in order to secure a city along economic, esthetic and hygienic lines. This will involve a consideration of the best method of restricting tenement building, so as to prevent overcrowding or congestion of population. President Taft has promised to address the gathering.

SEIZED FISH SARDINES. Pure Food Board Decides in Favor of Defendant in Case of Agent Booth.

(BY DIRECT WIRE TO THE TIMES.) WASHINGTON, May 12.—(Exclusive Dispatch.)—The pure-food board of the Department of Chemistry, Agricultural Department, has decided in favor of the defendant in the case of F. E. Booth, who 1200 cases of Monterey mackerel were seized in New York on the ground that the fish was misbranded, Booth is the San Francisco agent for these goods. The department decided that the fish is neither mackerel nor pilchard, as it was called by David Starr Jordan, but sardines, and it will be known as sardines in the future.

This California fish was declared by the Bureau of Fisheries experts superior to the California sardines packed on the Atlantic coast.

DIPLOMATIC CHANGES. PRESIDENT'S NOMINATIONS.

(ASSOCIATED PRESS DAY REPORT.) WASHINGTON, May 12.—The President today sent to the Senate the following nominations: Ambassadors Extraordinary and Ministers Plenipotentiary: One to Straits of New York, Turkey; William Woodville Rockhill of the District of Columbia, to Russia. Consul-General: Charles Denby of Indiana, at Vienna; William A. Rubie, Wisconsin, at Shanghai. P. Wilder, Wisconsin, at Shanghai. Judge-Advocate-General, with rank of brigadier-general: George B. Davis, Wisconsin, at Hongkong, and Mr. Wilder from Hongkong to Shanghai.

FLOUR EXPORT CHECKED. WHEAT MANIPULATION.

(ASSOCIATED PRESS DAY REPORT.) WASHINGTON, May 12.—"Wheat manipulation at Chicago has rendered business in American flour impossible for months," reports Special Agent M. H. Davis of the Department of Commerce and Labor, who is in Europe investigating market conditions. "I consistently believe," he said, "that if the wheat speculators had let the market alone, we should have exported at least 2,000,000 barrels more of flour to Great Britain and Europe on the current crop than the figure will now be able to show."

WASHINGTON BRIEFS.

Capture of Americans Denied. WASHINGTON, May 12.—A brief dispatch received at the State Department today from the American legation at Tangier reports a telegram from the consular agent at Medagor, Morocco, who says that the rumored capture of American travelers near Agadir is untrue.

Small Quake Recorded. WASHINGTON, May 12.—A distant earthquake, beginning shortly after 1 o'clock last night, was reported today by the United States Coast and Geodetic Survey at San Francisco. The

## PARIS STRIKE.

(Continued From First Page.)

The movement has not made much headway except at Havre, where a special service arranged by the Chamber of Commerce will be inaugurated. At Bordeaux, Lille and Chartres conditions are normal. In some cities, notably Lyons and Chambery, the postal employees have openly expressed their disapproval of the strike. There is some anxiety at the Paris hotels, where numerous Americans are expected to arrive during the next few days.

MASS MEETING HELD. A mass meeting of postal employees tonight was not so well attended as that of last night. The meeting, however, adopted a resolution to continue the strike with vigor.

It was announced the number of strikers was growing rapidly both in Paris and in the provinces, an instance being given of the mail clerks on the Lyons mail, who had quit on the road. During a long speech, M. Lauron declared that violence or destruction of property by the postal employees would be tolerated. He said the men would finish the tasks on which they were now engaged.

Two detachments of naval mechanics, summoned from Brest by the Minister of Marine, have arrived here and are now stationed in the machine shops of the central postoffice, and the central telegraph bureau.

The Hotelkeepers' Union has arranged to take the mail of foreign guests to Brussels, whence it will be sent abroad. They are also devising a scheme to deliver incoming mail. The first sign of the intentions of outside unions to participate in the strike movement, came tonight when a meeting of the delegates of the United Syndicates of the Seine, it was decided, "that the moment has come to throw down the barriers separating the state employees from the workmen."

The delegates bound themselves to start an organization of the respective unions so as to be ready to march out in a body, when a general strike should be called by the invited General Federation of Labor to take all steps necessary to create a general movement in France.

STRANGE FATE. GIVES UP LIFE FOR TRESSES.

WOMAN DIES RATHER THAN LOSE BEAUTIFUL HAIR.

Physicians Told Her That Her Vitality Was Consumed by Luxuriant Growth of Deep Auburn Locks Which Swept the Floor, But She Would Not Have Them Cut.

(ASSOCIATED PRESS NIGHT REPORT.) DENVER, May 12.—That Mrs. Mania Patter Walley, 34 years old, sacrificed her life rather than submit to the loss of her luxuriant tresses, is the belief of Denver physicians who attended the woman until her death.

Mrs. Walley died yesterday at her home in Berkeley, where she had gone in the hope of regaining her health.

It is the opinion of the physicians that the vitality which should have sustained Mrs. Walley was consumed in her great wealth of hair, which had attained the length of ninety inches and was of a deep auburn color.

Witnesses told she must lose her tresses or perhaps die, she chose the latter course and would not hear of having her locks shortened.

SALVATOR DISAPPEARS. PAINESVILLE (O.) May 12.—John Salvator, "the missing John Orth," supposed to be Archduke Johann of Austria, who disappeared last night, was still missing today. The said machinist did not report for work at the Coe foundry, nor did he return to his residence, where he was leaving last night, Salvator said he was annoyed by the publicity and that he would leave. He said he was going west, and started toward Cleveland.

NEW TALES OF HORROR. ARMENIANS BUTCHERED IN HERDS LIKE SHEEP.

(ASSOCIATED PRESS NIGHT REPORT.) LONDON, May 12.—A special dispatch from Salonika says that Talsat Bey, vice-president of the Chamber of Deputies, who was sent there to arrange with Abdul Hamid for the transfer of his fortune to the government, succeeded in obtaining the signature of the former Sultan for the withdrawal of funds from foreign banks, but that Abdul Hamid resolutely refused to deliver up the keys to two iron rooms in the Yildis Kiosk, which had resisted all efforts at forcible entrance.

After Talsat Bey's departure, the dispatch says, officers of the guard, furious at the former Sultan's refusal to comply with the demand, rushed into the room and forced him to surrender the keys without further parley.

CONSTANTINOPLE, May 12.—The following dispatch through wire light on the methods of the Armenians in conducting the recent massacres, was received today from Sir Asiatic Turkey:

"Seven Armenian preachers, two delegates and three Armenian women passed through Sir on their way to the yearly synodical meeting at Adana, the day after the fighting began at that place. They stopped over night in the village of Sagh Gachad, some of the party being the local Governor and the others with another of the leading men of the village. Hagl Bey, mediana took the travelers from the houses where they had spent the night, and gathering together a number of Armenian, lived in Sagh Gachad, until they had ninety-two in all, butchered all the unfortunate in the streets. The bodies of the dead were carried out to the country and thrown

into the sea. The women were treated violently."

The wife of the Governor watched the killing from the balcony of her house. The bodies of the dead were carried out to the country and thrown

## TOBACCO AND IRON ARGUED.

Crawford Wants to Protect Natural Resources.

Paynter Would Aid Farmer Against Trust.

Senator Gore in Cause of the Small Retailer.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, May 12.—After a debate of several hours in the Senate today on the window glass schedule of the tariff bill, Senator Aldrich asked that the paragraph be passed over.

Some other sections relating to glass manufactured articles that previously had been passed over were agreed to.

The Senate considered sections that had been passed over until the iron ore paragraph was reached, when Senator Crawford spoke at length upon the lack of wisdom of any tariff that encouraged the exhaustion of natural resources which could not readily be produced.

He insisted that there should be no tariff on iron ore, oil, and advertising to prove anything further. Not so with Prof. Todd and Mr. Stevens, who are more enterprising.

"Besides," says Mr. Stevens with an airy wave of the hand, "even at ten miles Prof. Todd and myself will be quite safe in the aircraft aluminum car the Professor is having built in Boston."

"Seven miles, you know, is the greatest height that has ever been attained by human beings. This was done by Cockswell and Glaser. They nearly died, too. It was said that the numbness and paralysis overcame them almost in the time of one heart beat. As for myself, I have never been up higher than four miles and a half."

"As far as I am concerned," Mr. Stevens continued, reverting to the Mars experiment, "I know little of nothing of the manner in which Prof. Todd intends to try to learn if that planet is inhabited. I understood from what he said that his efforts will be to catch some sound or sound vibrations with some exceedingly delicate instruments that he will carry. I am simply accompanying him in my capacity of aeronautic pilot."

"Our oxygen pumps will be so equipped that we can supply ourselves for practically any length of time with air, so that as far as that is concerned we could stay up indefinitely. We will use water as ballast."

COMMENCEMENT AT BERKELEY. BERKELEY, May 12.—The commencement exercises of the University of California were held today in the Greek Theater, to which the faculty and students, in caps and gowns, marched from the south hall and library, headed by Gov. Gillett and President Benjamin Ide Wheeler. The opening invocation was pronounced by Rev. Dr. Clairborne M. Hall of San Francisco.

Short addresses were delivered by two members of the graduating class, Miss Almira Johnson and George L. Bell. The gold medal for the most distinguished scholarship of the class was given to Miss Mary Louise Phillips of Denver, who briefly acknowledged the honor.

After an address by President Wheeler, the graduating class marched on to the stage, where their diplomas were handed to them. Gov. Gillett then conferred military commissions on the cadet officers of the university.

WHITTIER EDITOR BOUND OVER. To Be Tried on Criminal Libel Charge. Gives Thousand-Dollar Bail Bond.

WHITTIER, April 29.—After a preliminary hearing lasting two days, and in which almost one hundred business and professional men testified, Park Mitten, editor of the Whittier Daily News, was today bound over to the Superior Court. He is charged with criminally libeling C. W. Harvey.

The editor's bail was fixed at \$1000, which was quickly furnished. The hearing here for the past few days, both parties to the action being well known.

The Stamping Ass. It is not surprising, says the Pall Mall Gazette, to learn that the Gladstone family have had to put a new slab in the Abbey to mark the resting place of Mr. and Mrs. Gladstone. Visitors to the Abbey too often tramp unthinkingly over the stones which commemorate our illustrious dead, when they might easily step aside. Recently we witnessed a curious illustration of this fact and overheard a curious comment on it. Two ladies were standing gazing at the marble slab over the grave of Browning and Tennyson, a sketchy sort of person proceeded to stand at ease exactly over the inscription on the late poet laureate's grave. One of the ladies turned hastily away, saying: "It makes me so angry! That man would have stood cap in hand before Tennyson when he was alive!" The other, who evidently knew her Fitz-Gerald, answered: "Never mind. The wild ass stamps over his head, but cannot break his sleep."

THOUSANDS TO HONOR CORREID. NEW YORK, May 12.—Four thousand tickets have been issued for the funeral services over Heinrich Corneid's body to be held in the Metropolitan Opera-house tomorrow morning. Famous opera stars and musicians will take part in the ceremony and addresses and eulogies will be delivered by noted men. The widow, who accompanied the body home, took it to the family residence last night and there friends were received today.

COLD WAVE THREATENS FRUIT. GRAND JUNCTION (Colo.) May 12.—The weather observer tonight predicts that before morning the temperature will probably go below the freezing point in some portions of the Grand Junction fruit region. The advanced condition of the buds makes cold weather at this time doubly dangerous. Preparations for smudging have been made.

ARIZONA BANKERS INDICTED. TOMBSTONE, May 12.—The United States grand jury in session here has returned a total of fifteen indictments against J. Eddieman, president of the defunct National Bank of Bisbee, also a number of true bills against Cashier Nolan of the same institution. The indictments charge falsification of the records and gross irregularities which caused the failure and suspension of the bank last year, its affairs now being in the hands of a trustee.

Prof. David Todd.

Prof. David Todd, who is more enterprising than most, every day mortals would be glad enough, after an ascent of that height, to return to terra firma with their souls still serenely bobbing around in their hides without troubling themselves to prove anything further. Not so with Prof. Todd and Mr. Stevens, who are more enterprising.

## TEN MILES UP FOR BALLOON.

Prof. Todd Plans to Break All Records.

Will Listen for Sounds from the Martians.

Latest Idea of Discovering Planetary Neighbors.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, May 12.—(Exclusive Dispatch.) At a height of ten miles in the air, three miles higher than any human being ever dared venture in any class or kind of sky voyage, Prof. F. Todd; aided and abetted by Astronaut A. Lee Stevens, proposes to establish definite proof that Mars is inhabited. Even the Wright brothers will tell you that a ten mile climb into the blue vault, or even a seven mile ascent, the record figure thus far, is certainly going some.

Most common, every day mortals would be glad enough, after an ascent of that height, to return to terra firma with their souls still serenely bobbing around in their hides without troubling themselves to prove anything further. Not so with Prof. Todd and Mr. Stevens, who are more enterprising.

"Besides," says Mr. Stevens with an airy wave of the hand, "even at ten miles Prof. Todd and myself will be quite safe in the aircraft aluminum car the Professor is having built in Boston."

SANTA MONICA MEETING FOR CONSOLIDATION.

Advantages of a Union of the Beach Cities Are Discussed, Under Auspices of Chamber of Commerce.

Question Is Presented from Various Viewpoints.

(SPECIAL CORRESPONDENCE OF THE TIMES.) SANTA MONICA, May 12.—Under the auspices of the Santa Monica Bay Chamber of Commerce, a lively meeting in the interest of the consolidation of Ocean Park and Santa Monica was held at the City Hall this evening.

President Webster acted as chairman and said it is a majority of the residents of North Santa Monica were satisfied with present conditions the men who are behind the consolidation movement might just as well quit—but he did not believe the majority were so minded. Mr. Webster riddled in turn the arguments that had been advanced on the preceding evening by the speakers at the anti-consolidation meeting, showing the fallacy of the alleged argument.

Councilman Miles of Santa Monica, in a brief talk, followed the president. He denied that Santa Monicans were satisfied with present conditions and it was his opinion that consolidation would remedy the situation and improve conditions.

Robert Dollard said he had given candid consideration to the question. He said the law of consolidation had prevailed in municipal and commercial enterprises, in the interest of economy. There is but one course, he said, for those who believe in properly consolidated cities, and that is to support consolidation.

Mr. Green of Ocean Park was introduced as one of the "hormed brutes of Pier Avenue," and he proved an earnest talker for the cause of Greater Santa Monica.

L. C. Gates said he was an intruder, as such of some of the things he had observed. He referred to the old harbor fight and believed then, as now, that the place for the government breakthrough was Santa Monica rather than San Pedro. The speaker asked if Santa Monica had taken advantage of her opportunities in the past, and said the time was coming when there would be but one city here. The problem is the destiny of the bay cities. The speaker painted a glowing picture of Los Angeles of the future, told of the glorious climate and the ocean breezes and of the demand that would arise for Pacific coast harbors upon the world.

This is at the gateway of the borderland of progress and there is a natural location for a commercial harbor, but that can never be accomplished so long as the towns are strung along the bay as a series of small cities.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, May 12.—Horse racing on its own merits—racing for the excitement of the sport and with book-making eliminated, will have its tryout at the metropolitan tracks tomorrow, with the opening of the 1909 turf season at Belmont Park, under the auspices of the Westchester Hacing Association.

There will be oral betting this year, as the legality of this method of making wagers has been sustained by the appellate division of the Supreme Court, but in order to keep within the law no recording of wagers will be permitted.

Adopting every means for increasing receipts, which fell off as the result of the adverse anti-betting legislation, the old administrator of the track, which is an American candidate for the derby, and the outcome was watched with great interest. He was formerly the property of John E. Mauden.

The horse was admirably ridden by "Steele" Martin and came in an easy winner by a length and half. This in all probability will shorten Sir Martin's price in the derby, for which he has been finding plenty of supporters.

The Chesterford Maiden Plate of 200 sovereigns for three-year-olds, distance six furlongs, was won by H. P. Whitney's Bobbin II, second and Pinhead third. Eight horses ran. A plate of 200 sovereigns, distance a mile and a half, was won by J. R. Keen's Clara, second and The Sweet Duchess filly third. There were no other starters.

Kelly Is Favorite.  
NEW YORK, May 12.—Hugo Kelly,  
who is scheduled for a forty-five-round  
fight with Billy Burke at Colma Sat-  
urday afternoon, was last night made  
favorite among the sporting men along  
the coast by taking considerable in-  
terest in the match. Several bets of  
large proportions were recorded, mak-  
ing Kelly a 10 to 7 favorite.

### CHAMPIONSHIPS.

THE men's lawn tennis doubles for  
the championship of the Pacific  
Coast, which are usually held at  
Del Monte in September, are this year  
to be held at Long Beach, beginning  
July 1. This arrangement is another  
proof of the growing popularity of the  
game on the coast, which is expected  
to eventually all the Pacific Coast  
championships will be played.

The winners of the Coast doubles  
championships at Chicago, August 1907,  
and the winners there will compete  
in the national championships at New-  
port, Rhode Island, August 17, where  
they will play against the national  
champions of last year.

The doubles championships of the  
United States are not decided in one  
large tournament as are the singles  
championships, but by the gradual elimi-  
nation of the poorer players, who are  
eliminated by the winners in section  
championships. Heretofore the Pa-  
cific Coast representatives have not  
been invited to play in the national  
championships, but this year the Na-  
tional Tennis Association has  
granted the privilege of contesting.

The eastern championships are to be  
played at the Longwood Cricket Club,  
Boston, beginning July 13. The west-  
ern championships will be played at  
Chicago, July 24, and the southern  
championships are to be held at At-  
lanta, July 5.

The national preliminaries are to be  
held at the Onwentsia Club, Lake For-

est, August 3, and the winners will go  
to Newport to play last year's winners  
for the national championship, Aug-  
ust 17.

The lawn tennis managers of South-  
ern California yesterday arranged the  
schedule of tournaments that will be  
held at the beach resorts during the  
summer. The number of tournaments  
is larger than ever before and it is  
expected that a larger number  
players will compete and that the  
playing will be equal to any in the  
country.

Tennis tournaments to be conducted  
by the Southern California Lawn Ten-  
nis Association, this summer, are:  
Annual tournament of the Venice  
Club, Venice, June 24-25.  
Doubles championships of the Pa-  
cific Coast, Long Beach, July 1-2.  
Annual tournament at Hotel Potter,  
Santa Barbara, July 15-17.  
Annual Southern California cham-  
pionship tournament, Long Beach,  
August 1-2.  
Annual tournament Hotel Virginia,  
Long Beach, August 19-20.

Other tournaments not conducted un-  
der the jurisdiction of the Southern  
California Lawn Tennis Association,  
but in which Southern California play-  
ers likely will attend, are:  
California State championship tourna-  
ment, San Francisco, middle of June.  
Oregon State championship tourna-  
ment, Portland, July 13.  
Intermountain championship tourna-  
ment, Salt Lake City, August 23.  
Texas State championship tourna-  
ment, Dallas, September 1.  
Pacific States single championship  
tournament, Del Monte, September 8.

## ANNUAL FEAST OF AUTO CLUB.

ORGANIZATION HAS MORE THAN  
THOUSAND MEMBERS.

Wonderful Growth Is Shown in  
Gloss of Year—New Officers  
Elected and Plans for More Work  
Receive Hearty Indorsement.

The Automobile Club of Southern  
California gave its annual banquet last  
night at the Westminster Hotel. There  
were 150 members present. Officers for  
the ensuing year elected were: George  
B. Ellis, president; Roy P. Hillman,  
vice-president; Charles B. Hopper, sec-  
retary and treasurer; directors, Fred  
W. Baker, H. W. Keller, L. D. Hale,  
F. O. Johnson, J. J. Jenkins, Char-  
les D. Andrews.

One of the most interesting reports  
of the evening was that of Secretary  
Charles B. Hopper. According to the  
report the club now has a membership  
of more than 1000. More than 700  
of these have been received into the  
organization since January, 1908. The  
club is in flourishing condition.

There was an animated discussion  
regarding the taxing of tourists who  
bring automobiles to Los Angeles. It  
was the sense of the members that the  
tax should be removed in order that  
autoists from the East may be induced  
to come here in large numbers. There  
were reports from all of the officers.

The gathering was the largest in the  
history of the club. The reports show  
that the organization is the second  
largest of its kind in the United States.

An interesting account of the work  
done by the club in posting the roads  
of Southern California was given by  
Secretary Hopper, who said it is the  
plan of the directorate to map out every  
road in the Southern California.

Ralph Hamlin, president of the  
Automobile Dealers Association, and  
J. S. International secretary, were hon-  
ored guests. Hamlin extended the cour-  
tesies of the dealers and offered the  
aid of the autoists in every way pos-  
sible.

Mr. Conwell said almost every mem-  
ber of the Dealers Association has  
joined the club. He spoke in favor of  
more cooperation and said the dealers  
are a unit in desiring the success of  
the club.

Lee C. Gates delivered an interesting  
address on the law with reference to  
the autoist. There were a number of  
other addresses by prominent members.  
Copies of the club guide book were dis-  
tributed to each member present.

GOLF CHAMPION COMES.

CHICAGO, May 12.—George Duncan,  
an Aberdeen golf professional, will  
make a tour of this country this sum-  
mer, and will play at the Eng-  
lish player, who is to be at the On-  
wentsia Club for four months, is ex-  
pected to compete in the open western  
tournament at the Skokie Club in Sep-  
tember.

AFRAID OF JEFF.

CHICAGO, May 12.—Jack Johnson  
left for Philadelphia today to meet  
Jack O'Brien in a six-round bout be-  
fore the National Sporting Club next  
Wednesday night.

The negro has not seen Jeffries, and  
according to Sam Berger, who is look-  
ing after the Californian's affairs, he  
has made it his business to stay away  
from the Jeffries headquarters.

"Jeffries and I would be perfectly  
willing to talk with Johnson if he came  
around," said Berger.

MAY DROP ROWING.

SEATTLE (Wash.) May 12.—The  
University of Washington faces the  
prospect of a rowing season without the  
important race. A telegram received  
from the athletic manager at Leland  
Stadium yesterday declares the Cal-  
ifornia institution will not bring a  
crew to Seattle to participate in the  
intercollegiate race. The message adds  
that it is probable that rowing all a  
sport will be dropped altogether at  
Stanford, owing to the lack of facili-  
ties for practice.

Most of the right of way for the harbor boulevard has been secured. The work on this boulevard will be quite expensive, as a heavy fill must be made for a considerable distance through Nigger Slough.

Whatever delay there may be in the inauguration of other projects, today's start on the El Monte road means that, this time forth, until the summer,

# MUSIC AND THE STAGE.

The musical-dramatic entertainment of the Gamut Club will be given to-night at the Auditorium, and incidentally prove to be a large attendance. The principal event of the evening will be the presentation of Francois Coppée's "The Violin Maker of Cremona," with a principal-cast including Florence Stone, Eugene Nowland, George L. Lyster and Robert Booth. Mr. Nowland will give a solo

Florence Stone, who has the principal part in the Gamut Club's dramatic production at the Auditorium tonight.

During his interpretation of the character of Filippo, a hunchback violinist, and incidental music will be furnished by Mrs. Lucile Semacher, at the piano, and William Edson Strohbridge, at the organ.

The first part of the programme will be devoted to musical numbers, by Misses Young, Mrs. Bertha Vaughn, Mr. Strohbridge, Ignas Eduard Marali and Harry Clifford Lott.

Dick Ferris has engaged most of the people for his Minneapolis season, which will commence May 30. His leading man will be Thurston Hall, who was here as principal support of Louis Russell. Sedley Brown will direct the stage, and with Mrs. Brown will for Minneapolis last night. Others coming from here are Earl Gardner and Jack Selgrave. A carload of baggage and scenery left yesterday morning. Mr. and Mrs. Ferris will leave on Saturday's Los Angeles Limited.

Charles Rohrband, of the Metropolitan Singing Company of New York, is here to make sketches of "The Dollar Mark" production.

It is probable that the entire first-act scene, with the exception of the musical mechanism, will be transferred intact to the stage of the Savoy Theatre, New York.

The next sale for "Playing the Possum," new Koth and Dill show, which will open Sunday night, will begin at the Savoy box office this morning.

Harry Campbell, manager of the Los Angeles Princess Theater, was in Los Angeles yesterday, conferring with John Blackwood on a new theatrical venture. Messrs. Campbell and Blackwood are interested in a new theatrical idea. They believe there is some compensation enough in our country to support the current "possum" craze, as a New York, Chicago and other cities almost equal in size to this.

The managers favor a site on Spring Street or Broadway. Mr. Campbell was formerly business manager of the famous old Grand Opera-house, before the earthquake.

Chas. Brown was made richer yesterday by the gift of a fine wild cat skin, which he is having made into a rug. The beast was four feet long, and was shot in the foothills of the Sierra Nevada, of the Mount of the Melancholy, of the Orpheum last week. The Melancholy, having a few hunting days, went hunting Monday and Tuesday, taking two weasels, twenty-five gallons of wine, and the occasional Italian quantity of food. They got a lot of small game, but the wild cat was the only beast of skin that came their way.

John Blackwood says he is like the youth who cried "Wolf! Wolf!" when there was no wolf; he is now protesting with apoplectic violence that this is the last week of "The Dollar Mark" and no one will believe him.

After "Miss Hobbs," the Belasco Theater company is to play "Beau Brummage" and Howard Scott should have one of the chief artistic opportunities of his career in the Mansfield. Mr. Scott will be the first actor to play the part of the picture a day has conception.

ROOSTERS IN WASHINGTON. Applications for District of Columbia Provide Fine for Crowing Fowls.

ASSOCIATED PRESS DAY REPORT. WASHINGTON, May 12.—Roosters are no longer to be kept in the District of Columbia. This is the principal provision of the new "chicken" regulation promulgated by the health department of the District.

The rules specify under what conditions roosters may be kept, stipulating that what care must be given the rooster houses and yards. But the gist of this series of "chicken" regulations is the following:

1.—No roosters may be kept on the premises.

2.—If one of from \$2 to \$10 a day is provided for all violations. The police say they are tired of the complaints of the people who own alarm clocks, and who want to be awakened by cock crowing.

PHYSICIANS ELECT. WASHINGTON, May 12.—At the last session of the Association of American Physicians, the following were elected: President, Harry Hays, N. Y.; secretary, George C. Shattuck, Washington, D. C.

Trade That Pays. Many men to learn to operate the typewriter, a good trade that pays above the average. The Remington Typewriter Company has over 300 typewriter machines per day, and just so many positions as good wages.

Los Angeles Times has installed a large typewriter, to be used in case of fire or other emergency, and has placed in charge an expert typewriter operator, making it possible for anyone who desires to learn either trade to do so. # Women's Fresh, New Suits Values to \$35.00 \$18.50

These suits are identical with those for which, a little earlier, women have gladly paid twenty-five and thirty-five dollars; and they were the very best values we could buy at those prices. Now that the choice has somewhat narrowed down, we offer the remainder of fresh, perfect spring suits at \$18.50.

Included will be fine novelty serges, imported suitings, solid, black and white checks, novelty panamas, white serges with black or brown hairlines; plain black; navy blue, tan, Copenhagen, greys, browns, the rose and coral shades for which there is so much demand; every suit lined with finest silk serge, taffeta or satin lining; some garments showing inlaid silk collars, others in plain tailored style, with man's collar and revers; three-button cutaways; trimmings of bands, net, horn, self-covered, velvet and novelty metal buttons; some skirts showing the high girle. All sizes between 16 and 42 are here.

We shall also offer a number of very attractive three-piece suits in grey, tan, navy and ashes of rose, in novelty tropical weight panamas, at the one price. . . . . \$18.50

# Good 5c and 10c Handkerchiefs

Maybe you think it's impossible to buy a handkerchief YOU would carry, for five or ten cents. If you look over these lines, we are sure you'll change your mind, for they're certainly wonderfully good values.

Sheer India linen handkerchiefs, taped, crossbar and corner embroidered effects; 5c, 50c a dozen.

Pure Irish linen handkerchiefs, with hand-embroidered initial, taped border, 10c, \$1 a dozen.

Taped batiste handkerchiefs, corded, in plain white, or with narrow bands of color about the hem—pink or blue; stylish for carrying in the breast pocket of one's tailored coat; twenty-cent values for 10c.

Taped, corded and all-over embroidered handkerchiefs, 15 cents.

Shamrock linen handkerchiefs, regularly 20c, for 15c, six for 75c.

**Hen-Crenshaw Wedding.**  
In the presence of about seventy-five intimate friends, Miss Alpha Allen and Charles R. L. Crenshaw were married last evening at the home of the bride's parents, Mr. and Mrs. B. B. Allen, of No. 2108 West twenty-eighth street, which was attractive with Shasta daisies and asparagus plumosus. Miss Allen, an exceptionally pretty young woman, was gowned in an elaborate robe of white satin trimmed with real lace. With this she carried a shower of lilies of the valley. Miss Elizabeth Allen, a young sister, in a white lingerie gown, acted as maid. Her bouquet was a nover of Cecile Bruner roses. George Losbacher was best man. Little Wynne and Carol Allen assisted as bridesmaids, each carrying a basket of pink rose buds. Rev. Baker P. C., pastor of Christ Episcopal church, read the service which was marked by simplicity. At the conclusion of a month's outing Mr. and Mrs. Crenshaw will reside at No. 2108 West twenty-eighth street, where they will receive their friends after July 1.

**Informal Luncheon.**  
Mrs. Arthur H. Brady, of No. 921 Franklin street, was hostess yesterday at a luncheon with which she entertained complimentary to Mrs. Herman J. and her house guests. Luncheon was served at small tables, adorned with corsage bouquets of Cecile Bruner roses.

**Quiet Wedding.**  
At the home of her parents, Mr. and Mrs. C. K. Greenhow, of No. 1290 West thirty-seventh street, yesterday, Miss Claude Greenhow was united in marriage to Thomas S. Milburn, Rev. E. J. Inwood officiating. Miss Greenhow wore a becoming gown of white lace, and carried a bride's roses. The minister in charge of Miss Grace Lee of Huntington, W. V. The home was bright with white carnations and ferns. Mr. Milburn and his bride will spend six weeks in New York, and will later return to Los Angeles.

## PUPPY'S WAILS MASTER'S END.

ITS HOWLS TELL WIFE OF HER HUSBAND'S DEATH.

Old Negro, Former Slave, Veteran of the Civil War, Wanderer in Many Lands and Breeder of Bloodhounds, Dies in His Little Cabin Home on the East Side.

While his last and dearest "pup" howled out the announcement of the coming end, "Uncle John" Belt, whose life's history reads like a page from "Uncle Tom's Cabin," died at his little cabin home on Avenue 28, at the Arroyo Seco, Tuesday night.

"Uncle John" was 81 years of age, a former slave, veteran of the Civil War, and for many years a breeder of bloodhounds.

The old man had been married several times, and although Belt was reputed to have wealth stored in various hiding places, his widow places the value of his estate at about \$8.

According to the statements of the few men who had gained his confidence, Belt was born in Hayti.

dling the animals while tracking down runaway slaves on the island. He selected the best stock he could find and had prepared to return to the United States when a revolution broke out and Belt joined the rebels.

Later he returned to this country, bringing his bloodhounds. He traveled to Chicago and became a Pinkerton detective. Then he came to Los Angeles, twenty-five years ago. He had lived here since.

He brought a white woman to Los Angeles with him as his bride. She died and "Uncle John" was broken-hearted for a time. But he later selected another woman. She has fallen here to the 19 state.

BEET GROWERS ASK PROTECTION FROM MONOPOLY.

Complain That Sugar Combine Has Divided Territory Into Districts Which Must Sell to Certain Factories Regardless of Price—May Stop Cultivation.

(BY DIRECT WIRE TO THE TIMES.)  
VIENNA, May 12.—(Exclusive Dispatch.) Beet growers are appealing to Parliament to relieve them from their bondage to the manufacturers of sugar. The trust has divided the territory arbitrarily into districts, assigning to the farmers individual factories where they are compelled to sell their product at any price and under any conditions the factories choose to impose.

There is absolutely no other market open to them. The system is not only ruinous to them financially, but it is otherwise demoralizing, as the factories purposely pay the peasants different prices to create a feeling of distrust and prevent their combining to protect themselves.

## SHE VANISHES.

(Continued From First Page.)

Mrs. Caswell had spoken to Marie about it, just before she left in the afternoon at 1 o'clock.

"I told her I should have to speak to her mother about it," said Mrs. Caswell, "and she said that her mother was going to be at the dressmaker's all that afternoon and the next day, so I did not telephone to her mother, as I intended."

The girl left the building as light-hearted and contented as usual, and went to her grandmother's on Scarff street, where she took luncheon every day.

A short time before his second marriage, which occurred two years ago, Belt attacked a negro, alleging that the man had assaulted his fiancée, who at that time was 30 years of age.

The old negro although 75 years of age, settled down to enjoy his honeymoon. Every afternoon with his bride seated in a rickety old buggy beside him, Belt drove to the Police Station and collected the garbage to feed his dogs. Remarks made by neighbors caused him to become rather bitter toward the public, and he kept a big sign posted on the door of his shack, "Keep Out."

## PUP'S DEATH WAIL.

He was taken ill last December and was in bed much of the time until his death. His wife sat up night after night with the old man. Tuesday night she went to sleep for a few moments. A little dog was limping about the place. The hounds had been sold or given away, and the one cur remained. Mrs. Belt was awakened by the animal's wails. The dog had detected the presence of death. He pulled at her clothing and howled his grief. She went to the door where the man lay and found a corpse.

Mrs. Belt yesterday said: "I ain't never goin' to git married agin'. I am goin' to remain true to the memory of my husband. I reckon I'm a widow now all right, and I'm goin' to act just like a widow. I ain't goin' to sacrifice his memory for no man livin' no matter how many proposals I git."

## FACTS, FEATURES AND FANCIES FOR WOMEN

BY MISS SYDNEY FORD.

A minister—and she happens to be a woman—Rev. Caroline Bartlett Crane of Kalamazoo, has risen to the pedestal of recognized authority throughout the United States in sociological circles on account of her far-reaching civic activities. She began twenty years ago when she was called to minister to a church in the Michigan town with an Indian name. It turned out that she ministered not only to the church, but to the city. She was a pretty, brown-haired girl when she entered the pulpit, and her clear, blue eyes took in the situation of that particular city's need and she rose to meet it. Beginning in Kalamazoo, the civic work inaugurated by the girl preacher spread all over Michigan and now is assuming a national scope. Mrs. Crane is vice-president of the American Civic Federation and because of what she did for Kalamazoo, many cities are sending for her to tell them how. She was honorary chairman of the committee from the State Board of Charities and Corrections that finally secured the establishment of juvenile courts in Michigan.

"We are all members of one body," was one of the eloquent girl preacher's first civic texts which, interpreted in Kalamazoo English, means several other things, observes a writer in the current number of the *Delineator*, one of which is that if the neglected condition of your neighbor's back yard on the next street brings typhoid fever to the residents there, it is pretty important to you personally, because the typhoid contagion may spread destruction to your own home.

Beside all this, it is to be noted that Mrs. Crane is the wife of a Kalamazoo physician and considers her model home her crowning achievement. Above the mantel of the family fire-place the blue illumines the carved motto in German text, "Life also is an art."

### Cramped for House Room?

If your house is small and, with summer coming on, you feel the need of an additional room, why not turn the porch into a summer living-room? Get some of the bamboo porch shades which may be had in the natural color or in green enamel. If you choose you may have the German imported porch shades, which come in half a dozen different colors and in several styles. None of them are expensive, but a couple of swinging chairs placed at six-bits each, half a dozen wicker seats at a dime apiece to scatter about the porch floor, spread a rag carpet, or two, hang a porch couch or hammock—both if you can afford it, a Japanese folding screen to screen the afternoon slumbers, a couple of wicker chairs and a couple of bamboo stools to hold books and magazines, and a bamboo Morris chair of your choice, a touch of the luxurious—and you are with a living-room fit for a king and at a cost which comes within \$20.

### Knives in Silver.

One of the latest things in silver is the Sheffield ware, whose distinguishing feature seems to be the grape-vine design. I saw some magnificent sets the other day consisting of a tray and set of five pieces. The finest was priced at \$1200 and was made of hammered silver, the design of grape clusters being particularly prominent. Another set was perfectly plain—hammered silver with gold trim. The sole attempt at decoration was the covers of the pieces, where the leaf of teapot and sugar bowl. These are elegant, and with an occasional punch bowl and candlestick in the grape-vine design of the Sheffield ware which would make wedding gifts.

Have you noticed that the toast rack, an English invention for holding the toast, and which, years ago, was popular on American tables, is again with us? I saw a graceful design yesterday in which the upturned silver rings were shaped like wheat ears.

### Kitchen Kinks.

If you need anything in the line of kitchen ware or cooking utensils, there is a golden opportunity offered just now at a hardware store, whose windows are filled daily with nickel and brassware, steam cookers and kettles galore, at about half price.

Dinner, observes Funk, in the primitive sense, is something to eat; but in the higher, social sense, it is something to sit over in uncomfortable chairs, peck at with six kinds of cutlery and be altogether bored by.

Prober gloves have now been perfected so that they are no longer stiff and awkward and come in the most varied varieties. They are also well-padded polishing gloves for protection to the hands.

The newest dining caps are perky and smart—no longer limp and soft, and lined with crinoline, they keep the hair off the face and are so slipper over the most elaborate without running or washing. A new, stiff bow in front makes the cap a becoming badge of domesticity.

Some protectors to match the dust cap are natty and useful and save a lot of the week's laundry bill by protecting your shirtwaist cuffs or sleeves from the dainty house gown.

### Shops in the Shops.

If you are giving a dinner, and your menu is green, you may find a novel candy decoration in the shape of very natural-looking peas in pod, or asparagus tips, at one of the confectionary shops.

In a simple solution of the long-standing problem I notice there are now handkerchiefs of tucked net offered at bargain prices. These can be attached to your last summer's short sleeves for about two minutes—and there you are.

Several stunning street suits in window displays are exhibited in the window of a Broadway establishment which hints itself to women's apparel, and nothing can be more serviceable and satisfying than a genuine home-made suit.

For the crepe effects has been made in auto veil, I notice, and chiffon veils are now offered at low prices and in various styles.

I saw a woman buy more than a dozen yards of chenille at a bargain price the other day, where lace and ribbon and ends of chenille were offered at a cent a yard. This particular woman carried all the chenille on the stand she would use it in making up sofa pillows.

Handkerchiefs harmonizing with the color of the hat are favored by the fashion of Paris.

Buttons have decreased in

size they have increased in numbers to the extent that double rows in long lines decorate the latest Paris costumes.

One of the latest eccentricities at the gay French capital is the wearing of a bunch of fruit in front of the jacket to match that on the hat. Some modify this fad by wearing a touch of berries, crabapples or cherries growing on the hat.

In spite of the fact that designers are doing their best to get away from the familiar jumper effects, nevertheless the Paris correspondent of the *Delineator* is authority for the statement that Paris has been badly bitten by the American mania for the jumper waist, and it is appearing over here in all forms, and is considered entirely successful.

### Pertinent Paragraphs.

Colors are very beautiful, with a profusion of rich and delicate shadings. The director's tie, made of crocheted lace, is a pretty finish to the dressy blouse.

Some of the separate gumpies are tied down with ribbons to the waist line.

The new jacket is somewhat on the Louis XVI style, but it is much smarter.

Vital contrasts do not exist, except when black and colors are put together.

Poppies and ears of corn and barley are all great favorites on the new hats.

Among the new shell hairpins one of the favorite styles is a broad triple loop.

The latest collar is of chiffon, the color of the bodies, surmounting a white yoke.

Chemistries of fine hair are worked elaborately in soutache, with sleeves to match.

## WOMEN'S CLUBS.

The closing exercises for the educational year of the Young Women's Christian Association will open Sunday afternoon and continue throughout the week. The different classes will entertain with interesting exercises every evening in the pretty auditorium, and the friends of each are invited to be present on these occasions.

The opening of these commencement exercises will be Sunday afternoon at 4 o'clock, when Miss Cora Tatham, general secretary, will give an account of the recent biennial, which was held at St. Paul, and of the National Conference of Secretaries held at Minneapolis. Miss Tatham was the Los Angeles representative at both of these sessions.

The exercises of the expression and guitar and mandolin classes will be held Monday evening, under the direction of Miss Elizabeth Yoder and Mrs. M. J. C. Britton.

The gymnastic classes will hold their annual drill on Tuesday evening. All the evening classes of this department will unite in a drill under the direction of Miss Ella Stever.

On Wednesday evening the expression department will present an original play, which is a sprightly effort in two acts, written by the girls of the composition class. Mrs. Elton House Brown is the director of this department.

The Choral Club will give a recital on Thursday evening, and the leadership of Mrs. L. J. Selby, and on Friday evening the two orchestras of the association will entertain with an evening of music under the direction of William H. Mead.

The 1500 girls who compose the classes of the different educational departments will be the guests of the association on Saturday evening, when they will be entertained with a grand class party.

The sewing and millinery classes, as well as the arts and crafts sections, will have an exhibition of work on Tuesday and Wednesday evenings, and there will be a demonstration by members of the afternoon gymnastic classes on Tuesday afternoon at 3:30 o'clock. Special lunches will characterize the closing programme of the cooking classes. These will be served several days during commencement week.

For the first time in the history of the association, arrangements have been made for holding summer school this year. This session will begin July 7 and continue until August 16, and will include the study of five of the most important branches of the association's educational work.

Landscapes and Architecture.

Myron Hunt lectured before the Russian Art Club yesterday morning, treating interestingly of "Relations Between Landscape Gardening and Architecture." The club's next meeting will be held at the home of Mrs. B. B. Ashley, No. 630 Prospect Park, Pasadena. A picnic lunch under the trees will be the feature.

### KNIGHTS WELCOMED.

Hospitality Extended to Delegates Returning from the State Convention at Pomona.

Hospitality was extended here yesterday to delegates to the State convention of the Knights of Columbus, which came to an end yesterday morning at Pomona. The visitors arrived in Los Angeles in the afternoon and were met at the Santa Fe depot by officers and a special committee of the Los Angeles Council of the order. Special cars conveyed the visitors to the Hotel Westminster which is their headquarters.

Among the fraternalists of this city who greeted their fellow knights were John P. Burke, Walter J. Goldsmith, Joseph Scott, Joseph Ford, Paul J. McCormick, D. J. Coyne, Henry Daly and F. J. McCarty. Visiting knights were Edward F. White, the newly elected State deputy, brother of the late Senator White; Theodore Savage, past State deputy; Joseph Coyle and other State officers.

Rt. Rev. Bishop de Silva of Portugal came with the visitors but will only remain here for a day before going to Fresno where he will conduct a mission. A number of other clergymen, members of the order, were in the party.

In the evening the Los Angeles Council tendered the visitors a ball in the main ballroom at Levy's. The hall was brilliantly lighted and there was a liberal display of purple and white, colors of the Knights of Columbus and the national colors. There were nearly six hundred knights and their ladies present.

Today the delegates and their ladies will make a trip over the "balloon route" stopping at Playa del Rey for dinner and dispersing later in the day.

## WOMAN DRIVES GIRL TO DEATH.

STUDENT AT GLENDALE HIGH SCHOOL KILLS SELF.

Fearing inability to hold place in the graduating class she hanged herself by Struggle and Commit Suicide by Inhaling Illuminating Gas at Local Apartment House.

Worry over her studies caused Miss Myrtle Brown, 21 years of age, a pretty student of the graduating class of the Glendale Union High School, to commit suicide late Tuesday night in this city, by inhaling illuminating gas. The dying girl was discovered by Mrs. Jessie McIntosh, who conducts an apartment-house at No. 511 San Julian street. She was taken to the Receiving Hospital, but expired before arrival there.

Pitiful is the story of the girl's brave fight against the odds of ill-health. Her difficulty in trying to keep up with her studies caused her no end of worry and made her timid. She did not want her picture taken with other members of the graduating class because she feared she would fail to pass the examinations. She had lost confidence in her ability, and, rather than longer face the doubt of success, she died.

Miss Brown left her parents' home on Walnut street, Tropic, Tuesday morning to go to school. She did not carry her lunch, as usual, and came direct to Los Angeles. She was met by day teachers at the school telephoned Mr. and Mrs. E. E. Brown that their daughter was wanted for the group photograph to be made of the graduating class. A search was then started and, as a last resort, the Los Angeles police were notified late that night.

In the meantime, Miss Brown had wandered about the streets. At last she reached the San Julian-street apartment-house, and paid a month's room rent in advance. She stated that she intended taking a course in book-keeping and stenography.

Her effort to fight off the desire to take her life was shown by the fact that she sat in her room the greater part of the night. She had last given up the struggle and, placing her undershirt on the floor, she lay down and put the tube from the gas lamp between her teeth.

Mrs. McIntosh was attracted to the girl's room by the odor of escaping gas early Tuesday morning. She looked over the transom. The bed had not been occupied, and the landlady could see a form, huddled up on the floor in a corner of the room. She entered with a pass key, and did everything in her power to revive the unconscious young woman.

The remains were taken to the Breese morgue, where an inquest will be held unless the relatives decide otherwise.

**BIG FIRE AT ALEXANDRIA.**

ALEXANDRIA (Va.) May 12.—More than \$100,000 worth of property close to the river front was destroyed by fire today. The fire destroyed the greater part of the block bounded by Lee, Cameron, King and Union streets. The fire was spectacular and was plainly visible from the national capital, five miles away.

## GRANT FOR TEMPERANCE.

Major-General Not a Prohibitionist, But Urges Total Abstinence on Young Men.

[ASSOCIATED PRESS DAY REPORT.]  
CHICAGO, May 12.—Before the Chicago Y.M.C.A., Maj.-Gen. Frederick D. Grant delivered an eloquent plea for temperance.

"I am not a prohibitionist," he said. "I believe that regulation can accomplish more than prohibition at present, but I do believe the individual can be a total abstainer. If you will allow me two glasses of champagne and one drink of whiskey in eighteen years, then I can claim to have practiced what I preach."

"The reason I urge that in young men is because I have found it an inviolable rule that where a man drinks but sparingly, getting drunk once in a great while, he always chooses for that periodical jag the worst possible time."

"Then I have a certain feeling toward a man that is drunk. I never have been in a private residence in Chicago or on the streets of the city or any of the other places in the world where I have been, and seen a man intoxicated but that I have felt like kicking him."

**GENIUS VERSUS ORTHODOXY.**  
ST. PETERSBURG, May 12.—The National Episcopal Congress today, Rev. Dr. Samuel D. McConnell of Boston, Md., denounced orthodoxy as an obstruction to thought and truth, and said it remained for genius to break down its wall. He said it was impossible for a man of genius to be orthodox.

**PANHOFF ARRESTED.**  
ST. PETERSBURG, May 12.—Panhoff, the Bulgarian journalist who played a prominent part in the Persian revolution, and who was supposed to have been killed at Astrabad, has been arrested at Moscow on the charge of carrying a false passport.

# WARMING UP MORE BITTER WAXES FIGHT.

Head-Schenck Lawyers  
Plan Some New Moves.

Ready for Denial of Motion  
to Kill Indictments.

Judge Davis Will Not Grant  
Change of Venue.

In the close of the proceedings for day in the Broadhead and Schenck case, before Judge Davis yesterday, as announced by H. H. Appel, attorney for Thomas H. Broadhead, that would examine but two more members of the grand jury, Mr. Teston of the Los Angeles County, Mr. O'Connell of the Los Angeles County, and Mr. Paul Schenck, counsel for his client, Sam Schenck, said he would examine these two witnesses.

In addition, E. J. Fleming, this morning, if carried out, means that part of the case may close today. It is understood that, if Judge Davis has the motion to set aside the indictments, Attorney Appel and Schenck will make a further contest; they have already prepared several in anticipation of such an event, containing more than 100 separate and distinct grounds for the setting aside of the findings of the court, that several days will be required to hear the arguments on these grounds.

The principal point of interest in today's proceedings was the ruling of Judge Davis in denying the motion for a change of venue at this time. The court reserved its decision on what might be the rule at some time in regard to future proceedings.

In the opening of the afternoon session, in response to the motion for a change of venue, and supported by the affidavits of Broadhead and Schenck, Judge District Attorney Appel said he had object for several reasons to a change of venue of the matter. He said the motion was inopportune because it would not be made for the purpose of stopping the present proceedings; notice of the motion and affidavits being disqualification of Judge Davis was not filed at least one day prior to the hearing of the motion; the affidavits are too late and therefore null and void; the cause itself is not in issue as neither of the defendants has pleaded to the charges in the indictment and therefore the motion is premature; the affidavits are based on hearsay; the affidavits against the defendants are not proved.

COURT DENIES BIAS. Accompanying this was the affidavit of Judge Davis, entering a general denial of the charges of bias made by Broadhead and Schenck, and denying he had indicated in advance what opinion might be, or that he entered any malice against the defendants. Following this the court said: "Whatever view the court may have adopted concerning the merits of the motion, as relating to future proceedings in the case, I am of the opinion that the privilege of the statute (Section 170, C. C. P.) cannot be invoked for the purpose of making such a motion, thereby referred to, applicable to the present proceedings before the court, to wit, the hearing upon the motion to set aside the indictments. In had commenced and was in progress when the motion having for purpose the disqualification of the court was introduced. At a later time, after the conclusion of the hearing on the motions now before the court, it will take up and pass upon the merits of the motion having for its purpose the disqualification of the court. You may now proceed in the trial of the motions to set aside the indictments."

NICK OSWALD ON STAND. One of the features of the day was the presence of Nick Oswald on the stand. He was not allowed, however, to answer any questions, but was put to him, by the defense, regarding his statement to E. T. Earl, regarding the red-light district, not regarding the account book of William Lawrence Foster.

Attorney Appel read a long question incorporating the text of Oswald's testimony before the grand jury prior to the indictment of Broadhead, but was not allowed by the court. Earl and E. T. Earl were called, but they, too, were prevented by the court from answering any questions. Earl's testimony with the indictment of Broadhead and Schenck, during the morning session, Lester O'Connell of Hollywood, a member of the grand jury, testified. He denied he entertained any opinion as to guilt or innocence of the accused, and that he was sworn as a member of the grand jury. He did not know the names of the witnesses indicted, and the back of the Broadhead indictment.

LETTERS TO THE TIMES. The Times freely publishes the views of correspondents without publishing their names, but it is a condition of publication that the writer be clearly identified. The paper of 200 words, on the subject of the case, is published. The paper is liable to be decided merely as to its length.

A Depot That's a Union Depot. LOS ANGELES, May 12.—(To the Times.) In connection with the discussion of building a depot at the present location, the building of a union depot for an indefinite period. Should the Southern Pacific build a depot at the present location and build the depot at once, the other roads may not build, as it suits them, and then with equal rights to have a suit-able location for their business. Will Gould, in discussing the subject this morning in your columns, states that he has seen the population of this city double five times. So have I, but while man nature is about the same now as it was forty years ago, commercial and industrial conditions are constantly changing. We all naturally would like to have some one improve our property without any expense to us, and the depot costs more money and a railway company who must pay money should be requested to agree upon themselves on the most advantageous location to enable them to do the greatest good to the greatest number. Kind Hearts—Good Deeds  
"How far that little candle throws his beam!"  
"Alone a good deed in a naughty world."

Samuel Sancerman of Des Moines, Iowa, is a foe to the use of tobacco as well as liquor. As a means of saving the boys of his State from these habits he has made the offer to give to every boy in Iowa who will take a pledge to use neither tobacco nor liquor, a cent a day for three years and another dollar at the end of the three years.

At the same time he urges the boys who accept his proposition to save the nickels and dimes they would otherwise have spent for tobacco and alcoholic drinks and put them with their account. He has figured out that if the boys will do this, none will arrive at the age of 21 years without having enough to take him through college or give him a good start in life.

William Cary, a fireman of Pittsburg, Pa., exhibited signal courage and presence of mind at a recent early morning fire. Mrs. Hostroan, the owner of the house, was alone in the building when the fire broke out, and she was driven to the upper story, where she appeared at a window and shrieked for help. A shaky ladder was placed against the wall, and Cary, ascending, carried the woman down the ladder to the street. The frail support almost gave way, the trucks with the regular fire ladders not having reached the scene.

Miss Marie Correll recently proved her respect for William Shakespeare's memory, and at an expense of \$5000 she saved some beautiful old houses near Shakespeare's old home from destruction that the historical atmosphere about the place might not be destroyed. The houses had been
